

## HEART AND SOUL

You say up, when i say down  
You start to run, when i say walk

but you know how to please me  
you know how to do me alright

you say day, when i say night  
you say no, when i say it's alright

but every time i try to leave you  
i can't stand when you're not around

I don't wanna let you go  
I just wanna let you know  
that i don't wanna let you go  
'cause your heart and soul

you say stop, when i say go  
and when i'm down, you start to fool around

but you know how to please me  
yeah you know how to do me alright

I don't wanna let you go  
I just wanna let you know  
that i don't wanna let you go  
'cause your heart and soul

oh baby don't you know sometimes I think  
that I would like the hammer to fall  
and I would like to break away  
but I can't be without you no more

I don't wanna let you go  
I just wanna let you know  
that i don't wanna let you go  
'cause your heart and soul

## THE SOFA

Well I'm sitting on my sofa  
and I fix myself a drink  
she has gone this morning  
gone away, packed her things, left without a wink

while I'm sitting on my sofa

have another drink  
she has gone this morning  
packed her things, gone away, left without a wink

and I'm sitting in my cold room  
and I stare against the wall  
oh I got no one to go to, I got no one to call

and I'm sitting in my cold room  
and I stare against the wall  
oh I got no one to go to, to go to, I got no one to call

so won't you take me out  
on a lonely Sunday evening  
so won't you take me home  
on a lonely Sunday night

while I'm sitting on my sofa  
have another drink  
she has gone this morning  
packed her things, gone away, left without a wink

so won't you take me out  
on a lonely Sunday evening  
so won't you take me home  
on a lonely Sunday night

## **BLACK FACE**

I woke up this morning  
and I hardly can believe in what I saw  
there was that little lady  
and she was lying next to me on the floor  
oh I really cannot remember  
how I got into this room  
oh I really can't remember it  
how I got into this room

who's that little lady  
who's that girl, who's lying next to me  
please somebody tell me  
can somebody explain this thing to me  
black face, she's lying in my bed  
just look into a black face she's lying in my bed

what happened last evening, say  
what happened last night  
last thing I remember

was me with John and Mr. Kite  
we're sitting round the table  
diggin' all those drinks down through the night  
that is all that I remember  
but who's that girl here by my side

who's that little lady  
who's that girl, who's lying next to me  
please somebody tell me  
can somebody explain this thing to me  
black face, she's lying in my bed  
just look into a black face she's lying in my bed

## **FOR YOUR LOVE**

### **SOMETIMES GOOD (WHEN LOVE SLIPS AWAY)**

don't know what happened, something went wrong  
we had our dreams, but where are they gone, blown away  
against the wind, just me and you  
now it seems, that our love is through, and so I pray

sometimes good, turns to bad,  
and who knows who's to blame  
you can't foresee, love's strange ways  
only fools don't see

waiting for you, the time passes by  
I'm getting nervous, the more I try to forget the pain  
I'm still waiting here in the rain  
and I'm singing this song again to forget the pain  
and I say

sometimes good, turns to bad,  
and who knows who's to blame  
you can't foresee, love's strange ways  
only fools don't see

if you made your decision, it's time to make it clear  
'cause I've been where I am before  
'cause all I ever wanted, was truth and honesty  
I never ever asked for more

sometimes good, turns to bad,  
and who knows who's to blame  
you can't foresee, love's strange ways  
only fools don't see

## **OH LORD**

can't believe it'reality  
I can't believe that it's true  
you said, you'd show the way  
if I follow you

I could allways depend on you  
you were my soulmate as well  
but somehow we've lost our way  
there's nothing to tell

oh lord, tell me is there something we can do  
not just hope and believing  
just praying to you

never thought it could be like this  
like strangers here side by side  
instead of showing our faces  
we're just seem to hide

we allways wanted be lovers  
and promised yes to be friends  
now I feel we loose it  
out of our hands

oh lord, tell me is there something we can do  
not just hope and believing  
just praying to you

## **WATCH OUT**

Hey baby won't you gimme a sign  
Move of your hands  
Or a wink of your eyes  
Just make a move get close by my side  
That I can reach you  
Feel your heat in the night  
Hey baby please gimme a sign  
Just move your body closer to mine

Watch out  
Watch her coming  
Watch out that lady

Hey darling won't you gimme your love  
Well it's nothing more  
That I'm asking for  
Move over honey, please take control  
Please be my pilot  
Take command of my soul  
Hey lady tell me what can I do  
I wanna get closer  
Closer to you

Watch out  
Watch her coming  
Watch out that lady

### **HOME TONIGHT**

I'm stuck inside these four walls  
she has gone away  
so lonely in these four walls  
she has gone her way

standing here waiting for tomorrow  
I'm standing in the backyard of my life

someone light up the darkness  
that surrounds me here  
and wipe away the memories  
don't let me drown in tears

standing here waiting for tomorrow  
I'm standing in the backyard of my life

so take me home tonight,  
will you lead me down that rocky road  
home tonight  
will you be the only guiding light  
home tonight, home tonight, home tonight  
will you take me home

I can't neglect the feelings  
still burning deep inside  
can't understand the meaning  
of the words you said that night

still standing here waiting for tomorrow  
I'm standing in the backyard of my life

so take me home tonight,

will you lead me down that rocky road  
home tonight  
will you be the only guiding light  
home tonight, home tonight, home tonight  
will you take me home

### **TELL ME WHY**

I know you want me to be your man  
And that's what I want to be  
Hold you when you're falling  
Hear you when you're calling me

You always tell me that I'm the one  
And that I'll always be  
The one to hold you  
Babe, that's what you told me so  
How can I be so unsure  
What am I looking for

Each time you leave me  
Tell me why  
These doubts, that haunt me  
All the time, down the line

You told me girl that you needed space  
A place where you can go  
When you need someone to listen  
Find out what you're missing now, somehow

Each time you leave me  
Tell me why  
These doubts, that haunt me  
All the time, down the line

### **SOMETIMES WHEN I STOP**

Sometimes when I stop and look around  
I'm thankful for the love and peace I've found  
I look at you, and you, you smile at me  
And this is all, I need to see

You take my hand and ask me how I feel  
But I'm ok 'cause I know you are here  
I close my eyes and everything's alright  
With you my love, my guiding light

'cause all my trials,  
all my fears I have inside  
got blown in pieces fade away  
as long as your sweet lovelight shines on me

late at night, when I can find no sleep  
I wonder 'bout the secrets that you keep  
I turn around and you lie by my side  
I'm feeling save and hold you tight

'cause all my trials,  
all the fears I have inside  
got blown in pieces fade away  
as long as your sweet lovelight shines on me

sometimes when I stop .....

break the bass !!!!!
